vkaushik@andrew.cmu.edu • 412-251-6314 • Pittsburgh, PA • [LinkedIn](#) • [Website](#)

Technical Product Manager with experience shipping AI-driven products across startups and enterprise environments.

EDUCATION

Carnegie Mellon University

Master of Science in Artificial Intelligence & Engineering Management (AIE-ETIM) | GPA: 4.0/4.0

Pittsburgh, PA

Dec 2026

Vellore Institute of Technology, Vellore

Bachelor of Technology in Computer Science Engineering | CGPA: 9.23/10

Vellore, India

May 2025

- Top 2% amongst the graduating class

WORK EXPERIENCE

Blue Street Data (Startup – Marketplace for Data)

Pittsburgh, Pennsylvania

AI Product Management Intern

May 2026 – Aug 2026

- Architected and rebuilt the company's entire knowledge graph from the ground up, engineering a measurable, data-driven framework to power every future migration decision.
- Built a multi-step AI agent pipeline, fusing live web search with autonomous website crawling, to source and clean provider data at scale and eliminate a fully manual research bottleneck.
- Spearheaded the launch of a company-wide internal AI agent, now the team's go-to system for verifying provider data, reducing incomplete records by **over 50%**.
- Redesigned the website layout and delivered a request-for-quotation feature specification covering buyer and provider workflows, negotiation chat, and structured specification sheets.

Voll Sante (Startup - Food manufacturer and supplier)

Mumbai, India

Product Strategy Intern

June 2025 – Aug 2025

- Orchestrated GTM strategy across two new wellness verticals, generating **15+ qualified B2B leads** and accelerating market entry.
- Spearheaded **3 co-branded digital campaigns** with design & analytics teams, improving **lead conversion by 30%**.

Ernst & Young (EY)

Mumbai, India

AI Product Management Intern

Jan 2025 – June 2025

- Managed cross-functional delivery of a GenAI procurement automation product, reducing manual effort by **40%** across three procurement functions.
- Embedded real-time analytics into enterprise dashboards, cutting decision turnaround by **25%** for procurement teams.
- Presented a **3-phase** adoption roadmap to executive leadership, securing deployment approval across **3 business units**.

Franklin Templeton (Global investment management firm)

Mumbai, India

Information Security Intern

May 2024 – June 2024

- Led enhancement of phishing-detection models, boosting detection accuracy by **18%** while maintaining full regulatory audit compliance.
- Coordinated cybersecurity and governance teams across **2 groups**, keeping releases on schedule.

Tata Elxsi (Global design and technology services company)

Bangalore, India

AI Product Intern

Aug 2023 – Sept 2023

- Owned development & deployment of a Whisper-powered speech transcription system, cutting compliance pipeline delays by **25%**.
- Directed sprint planning and backlog prioritization across **4 sprints**, balancing technical feasibility against accessibility requirements.

Tata Capital (Financial services company)

Mumbai, India

Cybersecurity Research Intern

April 2022 – May 2022

- Designed a root-cause incident classification framework improving reporting accuracy and resolution prioritization.
- Authored emerging fintech security trends report informing 2022-23 internal audit risk planning.

PROJECTS

Machine Learning Intrusion Detection System | IEEE UPCON 2024 | Python, ML, Feature Selection | [LINK](#)

Sept 2024

- Built an ML intrusion detection system achieving 92% accuracy across 4 attack categories, cutting model training overhead by 30% through optimized feature ranking, and published the findings in IEEE Xplore after presenting at UPCON 2024.

STD Prediction with Machine Learning | Python, SciKit-Learn | [LINK](#)

Jan 2024

- Evaluated multiple machine learning models for STD prediction, achieving 87% classification accuracy and identifying five clinical risk indicators.

SKILLS & LEADERSHIP

- **Product & PM Skills:** Roadmap Development, Requirements Gathering, Stakeholder Management, Market Research, Customer Discovery, GTM Strategy, Agile/Scrum, Performance Optimization
- **Technical Skills:** Python, SQL, Tableau, Excel, MATLAB, Wireshark, Java, R, LSTM, CNN
- **Leadership & Impact:** Coordinated medical camps serving 300+ patients; Organized tech fests & innovation events (IEEE & Robotics Club), and led community outreach through NGO Anokha.
